

...of blue makes me happy.
Like the sea, the blue sky, the earth which is completely blue,
looking from the space!
(Hermann Beyer)

Francis Bacon

Francis Bacon (1909-1993) was an English painter, best known for his portraits, which often depicted figures in states of emotional and physical distortion. His work is characterized by a sense of movement and a focus on the human condition. Bacon's art is a blend of expressionism and realism, capturing the essence of his subjects in a way that is both powerful and haunting.
